Library grant

The Baldwinsville Public Library was recently awarded a $244,517 Public Computer Center grant as part of the Broadbandexpress@your library project from the U.S. Department of Commerce National Telecommunications and Information Administration (NTIA). The funding from this two-year grant will allow Baldwinsville Public Library to:

- Expand existing computer services by adding more computers
- Offer one-on-one and classroom instruction on a variety of topics geared specifically to job seekers, small business owners, and senior citizens
- Purchase books and DVDs for loan and make software programs available for job seekers and small business owners
- Purchase video conferencing equipment which will be available for use to public and not-for-profit organizations.
