

WHAT IS A SCHOOL LIBRARY SYSTEM?

New York State's 41 School Library Systems are state funded consortia designed to support the school library media programs of member public school districts and nonpublic schools.

School Library Systems provide specific services and programs that support the learning process of students, teachers and staff. School library systems promote increased student achievement through the use of quality information resources.

ACCESS, CONTENT, TRAINING

- Promote information literacy for students and support the New York State Learning Standards.
- Use the latest technology to make print and electronic resources accessible to students and the education community through connections to all libraries in New York State.
- Establish special collections of materials through Cooperative Collection Development projects and provide electronic resources through cooperative purchases.
- Provide for professional development and specialized training opportunities for the educational community, clerical and administrative staff and school library media specialists.

SCHOOL LIBRARY SYSTEMS:

Connect Pre-K – 12 students and staff to a world of information:

- Provide access to information and library resources locally, regionally, statewide and nationally.
- Provide access to the latest advances in library and education technology.

Conduct professional development and awareness activities:

- Provide training on the latest advancements in technologies for school library media specialists, teachers, clerical and administrative staff. Serve 3 million students statewide.
- Support the pre-K-12 curriculum and the New York State Learning Standards

SCHOOL LIBRARY SYSTEMS SERVE Students, school library media specialists, faculty and administrators in public and nonpublic member schools.

BACKGROUND INFORMATION

In 1984, the State Legislature authorized the establishment of school library systems in [Education Law #282-284](#). Governance and function are established in regulations of the Commissioner of Education ([CR 90.18](#)). School Library Systems are based within the State's Board of Cooperative Educational Services (BOCES) and the Big 5 City school districts.

The 41 school library systems are supported primarily by State Aid. Systems qualify for aid based on an approved five-year Plan of Service, annual budget and annual report. In addition to a base grant, State Aid is allocated by a formula that includes the number of member school districts, the number of pupils in the service area and the square mileage of the system service area.

EFFECTIVE SCHOOL LIBRARY MEDIA PROGRAMS IMPROVE STUDENT ACHIEVEMENT:

- Strong school library media programs, which are supported and enhanced by the School Library System network, provide for higher learning standards and increased student achievement.
- School Library Systems help school library media centers become more effective by participating in and promoting statewide initiatives such as the New York Online Virtual Electronic Library (NOVELNY). While the average school library currently has 25 periodical subscriptions, NOVELNY brings the full text of thousands of magazines, newspapers and other digitized research materials to students, teachers and administrators.
- School library staff impact positively on student performance and test scores. The New York State Regents Commission on Library Services survey conducted in 2000 confirmed the [findings of the well-known Colorado study](#) and studies in nearly 20 other states. Studies showed that reading and math test scores improve by 10 to 15 percent in schools with strong library programs and qualified school library media specialists.

FACTS ABOUT SCHOOL LIBRARY SYSTEMS:

- Serve 3.2 million pupils, teachers and administrators statewide.
- Serve 4,236 school library media centers in public school districts and nonpublic schools statewide.
- Facilitate interlibrary loan requests and resource sharing.
- Provide access to NOVELNY and other electronic information databases that include the full text of magazines, newspapers, books, etc.
- Provide professional development opportunities for school library media specialists, staff and other educators and administrators.
- Provide electronic catalogs of regional and local resources.
- Connect with the New York State Library as well as public, academic and special libraries for access to specialized resources.
